#### The Reference List

- The reference list is placed on a new page under the heading "References".
- Only items cited in text are included in the reference list. Works you have not identified in the text are not included.
- The reference list is double-spaced and listed in alphabetical order according to the first author's name. Works by the same author(s) are listed in order by date of publication with the oldest listed first.
- The second and later lines of each reference are indented by 5 characters.
- If a web address wraps across 2 or more lines, break it before a punctuation mark such as ? / or
- Make sure that Word does not underline hyperlinks.
- If your reference ends with a URL (Web address) do not add a final full stop.
